

Dynasty Filtration

Resin Bonded Filter Cartridges

Typical Applications

Water Filtration

Paint Filtration

High Viscosity Fluid Filtration

Corrosive Chemical Filtration

The Dynasty Resin Bonded Filter is ideal for the removal of sediment, and other unwanted particulates. The grooved media provides 3 times more filtration area than cylindrical cartridges and substantially longer life. A density gradient through the filter provides the maximum in dirt holding capacity and extends filter life.

Maximum Temperature: 180° F

Maximum Differential Pressure: 70 PSID

Ends: Double Open Ends

Materials of Construction: 100% Cellulose Fibers with Phenolic Resin Binder

Outside Diameter: 2.5"

Lengths: 9 3/4", 10", 20", 29.25", 30", 40"

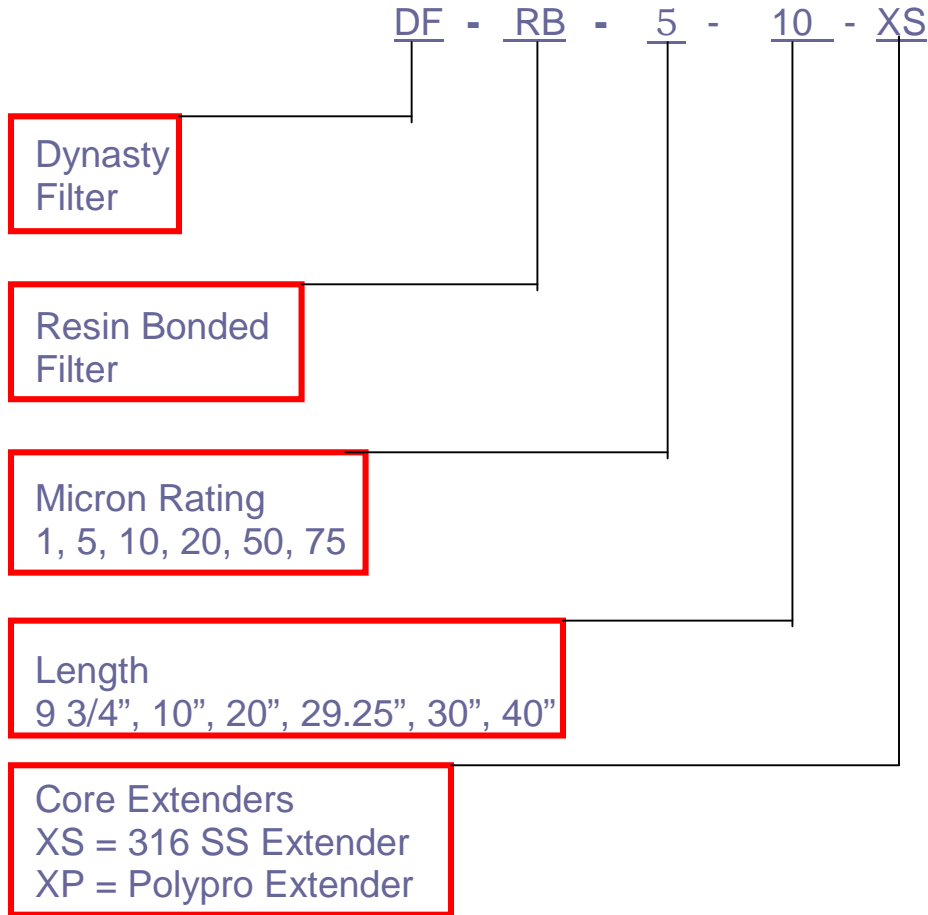

123 South 16th Street

LaPorte, TX 77571
